Yamaha Motor Corporation and Rexburg Motor Sports Donate Use of Yamaha Rhinos to Bonneville County Sheriff's Search and Rescue

The Bonneville County Sheriff's Search and Rescue is pleased to announce that it has placed two new Yamaha Rhino side-by-side utility vehicles in service to assist in Search and Rescue missions in Bonneville County and surrounding areas. The use of the vehicles was made possible through the Yamaha Motor Corporation's Law Loan Program, with the support of Rexburg Motor Sports.

The Rhinos will assist the Bonneville County Sheriff's Search and Rescue in their search efforts throughout the summer, and then be returned to Yamaha at the end of the season.

The utility vehicles are well suited for Search and Rescue applications, allowing the search team to more rapidly field valuable assets such as emergency medical equipment, high angle rescue equipment, and K-9 teams to areas typically not otherwise accessible by standard four-wheel drive vehicles. Additionally, because of the small size and maneuverability of the vehicles, they will make for ideal search vehicles.

The vehicles will be available for viewing by the media by appointment, by contacting Dave Ferguson at 208-351-8889 or George VanderMeer at 208-339-2999.

The Bonneville County Sheriff's Search and Rescue would like to express their sincere thanks to the Yamaha Motor Corporation and Rexburg Motor Sports for their support.

The Bonneville County Sheriff's Search and Rescue is an entirely volunteer, non-profit organization operating under the direction of the Bonneville County Sheriff, and is dedicated to providing search and rescue to the citizens and visitors of Bonneville and surrounding counties. The organization, serving since 1959, relies heavily on donations and grant to perform their service.

For more information, please contact:
